

2023 OREGON VIOGNIER

VINEYARD

We produced our first bottling of this wine in 2000, blown away by how pretty the Viognier fruit was we were seeing in the vineyards, and the flavors that burst from the grape when you popped one into your mouth. We love the uniqueness of this white variety and strive to always create a wine showcasing beautiful fruit, and the delicacy and freshness of Oregon's climate.

AVA	KEY VINEYARD	PLANTED	SOIL	ELEVATION	CERTIFICATION
Rouge Valley	Crater View Vineyard	2006	Brader-Debenger loam	1,500 – 1,670 ft.	LIVE, Salmon-Safe

2023 VINTAGE

The 2023 growing season started with a cool spring causing a delayed budbreak. Warmer temperatures quickly followed, resulting in one of the shortest periods between budbreak and flowering in our history. The canopies thrived, and disease pressure remained low. A warm summer enabled the growing season to progress quickly. Harvest began earlier than anticipated, with excellent flavor development observed. The resulting 2023 wines exhibit a beautiful balance of acidity, structure, and fruit.

TASTING NOTES

Aromas of jasmine, Meyer lemon and warm honeydew. A bright attack of lemon zest quickly gives way to a broad mid-palate and savory length to finish.
